

By using this website, you are confirming that you accept our cookie policy and to the use of the cookies described below. We use a tracking cookie which allows us to improve our website and only collects data for statistical analysis. None of the data we collect can be used to identify a user and will never be sold to third parties.

What are cookies?

Cookies are small text files that are placed on your machine to help the site provide a better user experience. In general, cookies are used to retain user preferences, store information for things like shopping baskets, and provide anonymised tracking data to third party applications like Google Analytics.

As a rule, cookies will make your browsing experience better. However, you may prefer to disable cookies on this site and on others. The most effective way to do this is to disable cookies in your browser. We suggest consulting the Help section of your browser or taking a look at [the About Cookies website](#) which offers guidance for all modern browsers.

Type of cookies used on this website

We use Google Analytics tracking on this website. These cookies are used to store information, such as what time your current visit occurred, whether you have been to the site before, and what site referred you to the web page.

These cookies contain no personally identifiable information but they will use your computer's IP address. To ensure user anonymity we have set our Google Analytics Cookie to anonymise each visitors IP address by removing the last set of digits from the users IP address meaning users cannot be identified.

Google's use of data

Google stores the information collected by these cookies on servers in the United States. Google may transfer this information to third-parties where required to do so by law, or where such third-parties process the information on Google's behalf.

Opting out of Cookies

To provide website visitors with more choice on how data is collected by Google Analytics, Google has developed the Google Analytics Opt-out Browser Add-on. The add-on communicates with the Google Analytics JavaScript (ga.js) to stop data being sent to Google Analytics. The Google Analytics Opt-out Browser Add-on does not affect usage of the website in any other way. A link to further information on the Google Analytics Opt-out Browser Add-on is provided below for your convenience.

Disabling Cookies

If you would like to restrict the use of cookies you can control this in your Internet browser. Links to advice on how to do this for the most popular Internet browsers are provided below for convenience and will be available for the Internet browser of your choice either online or via the software help (normally available via key F1).

Internet Explorer
